

DISMAS HOME IS WHERE YOUR RECOVERY BEGINS

The mission of DHNH is to graduate and assist our residents with a successful transition back to New Hampshire communities. Through education, training, therapy, and recovery services, DHNH prepares our residents to be able to deal with all aspects of life upon reentry into the community. We assist and prepare our residents to become fully invested in transforming their lives and reentering the community as productive, physically and mentally healthier people.

“For 21 months I was just a number, when I left prison and went to Dismas Home, the staff helped me to reclaim my name and my life”.

-Former Resident
